

Tender & Contract Disclosure Information

Tender Details

TIDC engaged the services of a specialist consultant in order to meet critical programme dates for the delivery of the Safety Assurance Reports for the Epping to Chatswood Rail Link (ECRL) Project.

A proposal was sought from a consultant with specialist knowledge (commercial, design, technical and project management) and experience on the ECRL Project for the production of TIDC safety documentation within a compressed timeframe. The specific project knowledge of the consultant is cost-effective and the rates are market competitive. Therefore, consistent with TIDC policy and procedures, approval was sought on this occasion to negotiate a direct engagement.
